

Metso Nordtrack J127 Track Mounted Jaw Crusher

#1900544

Feeding Unit

Feeder - Pan feeder & scalper, two-stage feeder with screen mesh below the grizzly.

Grizzly - Grizzly spacing 75 mm (3")

Screen deck media - Steel cloth 35 mm (1 3/8"), screen mesh under the grizzly section for bypassing material.

Feed hopper - Standard

Side conveyor - Included, belt conveyor for transporting the fine material to the side of the Nordtrack.

Crusher

Crusher - Jaw crusher, primary jaw crusher with bolted and pinned construction.

Jaw profile - Quarry, designed to crush efficiently blasted rock with less fines content. The flat teeth provide with longer lifetime when crushing abrasive materials.

Setting adjustment - Hydraulic setting adjustment

Belt protection plate - Included, below the crusher a plate is mounted to guide the crushed recycling material together with steel parts onto the main conveyor and to protect the belt conveyor.

Power Unit

Diesel engine - CAT C9.3B

Emission class - Tier 4F

Oil selection - Standard (Up to 40C/104F)

Main Conveyor

Dust encapsulation - Included

Magnetic separator - Included, twin pole magnet separator to remove metallic particles from the

main conveyor.

Optional Equipment

Dust suppression, water spray - Included, for binding dust particles under the crusher and at the discharge end of main conveyor. Includes water pump.

Working lights - Included

Remote control for tracking - Included, enables the remote control of following functions: moving forward/reverse (tracks). Can also be paired with cord.

Finishing

Color - Metso beige

Safety labels - ANSI
