

Used 1992 Nordberg NW1415HS Primary Impact Crushing Plant Unit #1096

#P1415VFR-C655

Equipment As Follows:

HS 1415 Impact Crusher with fabricated frame, wear resistant replaceable upper and lower side plate liners, rotor, cast wear resistant hammers, spherical roller bearings, side access doors, 1-1/2HP Electric pumping unit for hydraulic opening of frame for inspection and servicing, chain curtain in feed box, crusher sheave, motor sheave, diesel driven.

Nordberg/Simplicity vibrating grizzly feeder 50" x 20'-0 including standard 120 mm bearings, AR steel side and bottom liners. Qty (2) 3' step grizzly bar section. Spring pedestal mounting, bearing protection by sealed and isolated oil baths within replaceable house, large diameter visual sight gauges to check oil level, drive guard, v-belts, motor sheave, pivot motor base and 40 HP Variable speed drive motor.

- Nordberg HS1415 Impact Crusher (Four Bar Rotor)
- Caterpillar 3408 Crusher Drive Engine
- 20' Vibrating Grizzly Feeder with Torspec Drive (Electric)
- Quad Axle Chassis
- 42" x 45' front discharge conveyor with hydraulic fold and impact bed.
- 12V Hydraulic Leveling Legs
- Hydraulic Crusher Hood Open/Close
